

**BOF SESSION:
INTERNATIONAL
DIGITAL GOVERNMENT RESEARCH**

TONY STEFANIDIS & NOSH CONTRACTOR

Dg.o2003, Boston

WHAT IS INTERNATIONAL D-GOV?

Not **bureaucracy** without borders

but rather

Solutions without borders

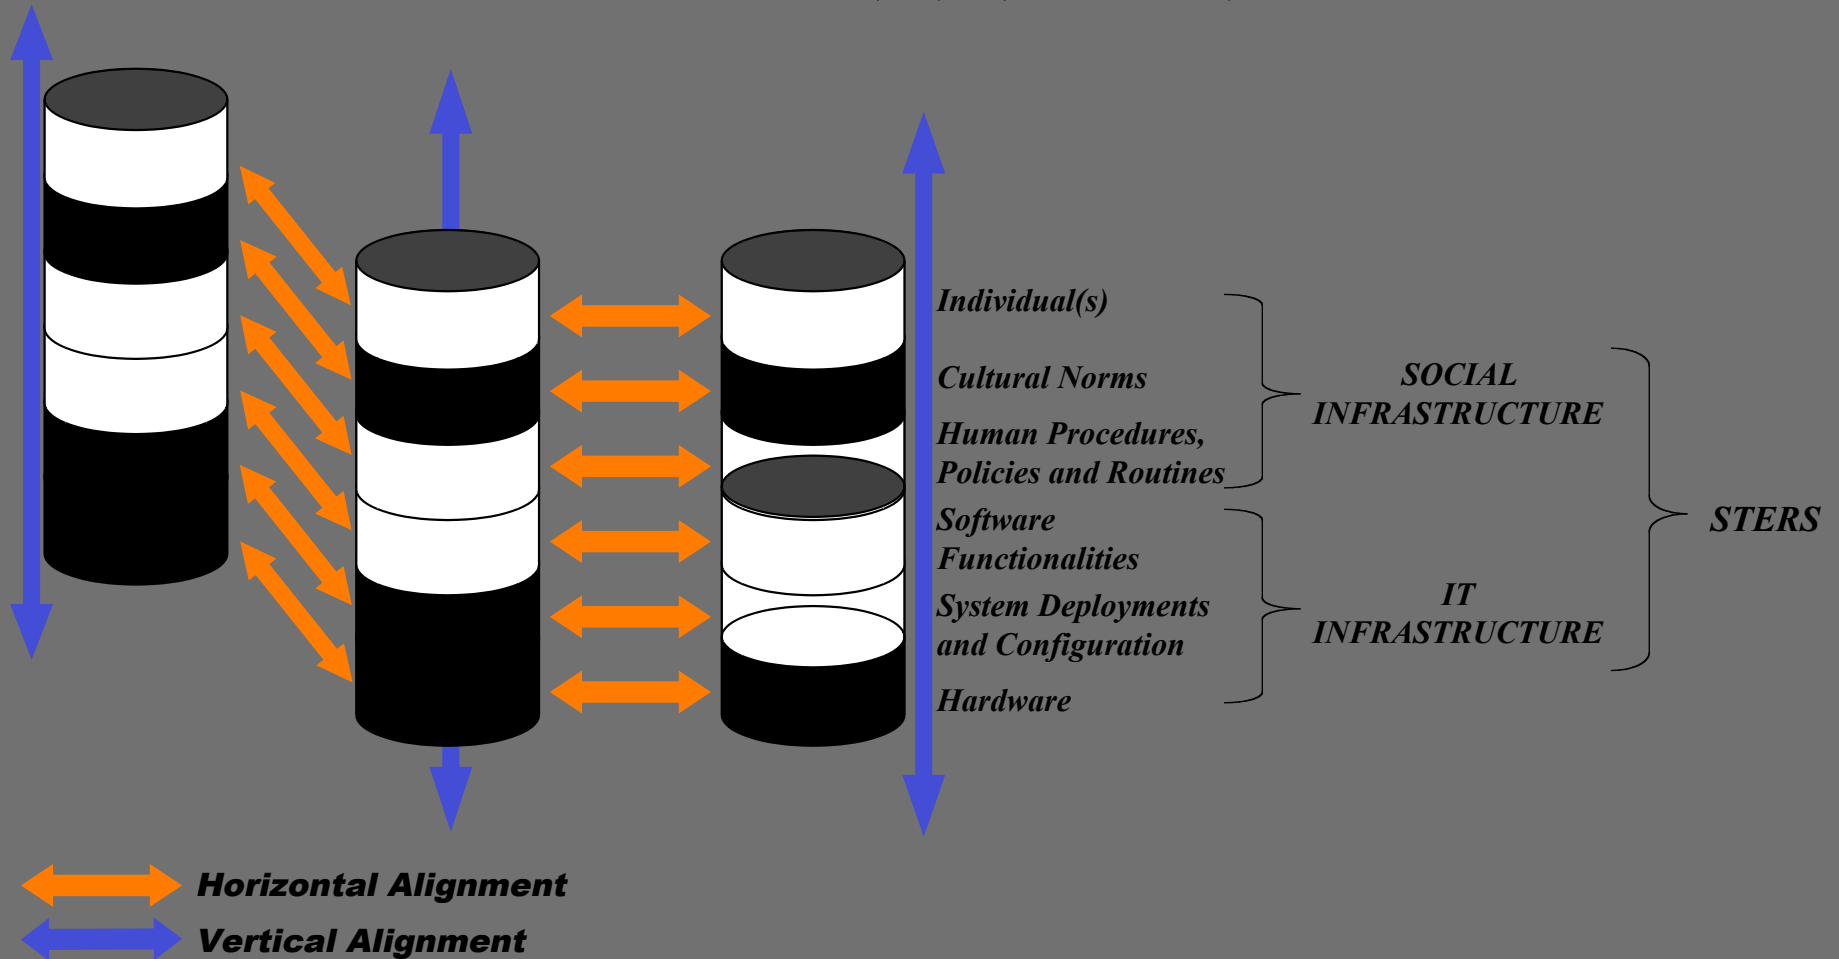

Sharing national e-resources to solve
problems that transcend borders

KEY ISSUES

Two community-building issues, and two research issues:

- Disseminating information across nations (e.g. inventories of d-gov research)
- Fostering international participation (e.g. meetings, international workshops)
- Identification of transnational problems as such
- Merging and reconfiguring capabilities and processes to address these problems

SOCIOTECHNOLOGICAL CHALLENGES

RECOMMENDATIONS

- Organization of international workshop(s) to foster collaboration and identify potential partnerships
- Strengthening ties with EU
- Move forward!
